

Discover & Protect Every Endpoint

While a distributed digital landscape breeds new opportunities for today's businesses, it also gives rise to new cybersecurity challenges. Endpoints remain a key attack vector for malicious actors seeking deeper access to your network. Today's security teams need flexible and robust prevention, detection, and response to secure every endpoint, no matter where they are in the world.

Endpoints Remain a Major Target for Attackers

Evolve Endpoints into Your First Line of Defence with our Endpoint Detection & Response Services

Dynamic Device Discovery

Automatically identify and protect unmanaged, network-connected endpoints that may introduce new risks.

Greater Visibility & Actionability

Reduce false positives and increase detection efficacy consistently with an autonomous, combined EPP+EDR solution.

Rapid Response & Time to Value

Remediate and rollback endpoints with a single click, reducing mean time to respond and accelerating investigation.

Protection from Edge to Edge

Know your attack surface

Understand the true expanse of your enterprise assets and identify, then dynamically protect, any unmanaged endpoints.

Manage Your Full Fleet

Centralize data and workflows from across your estate into a single view for extended visibility and control of enterprise endpoints.

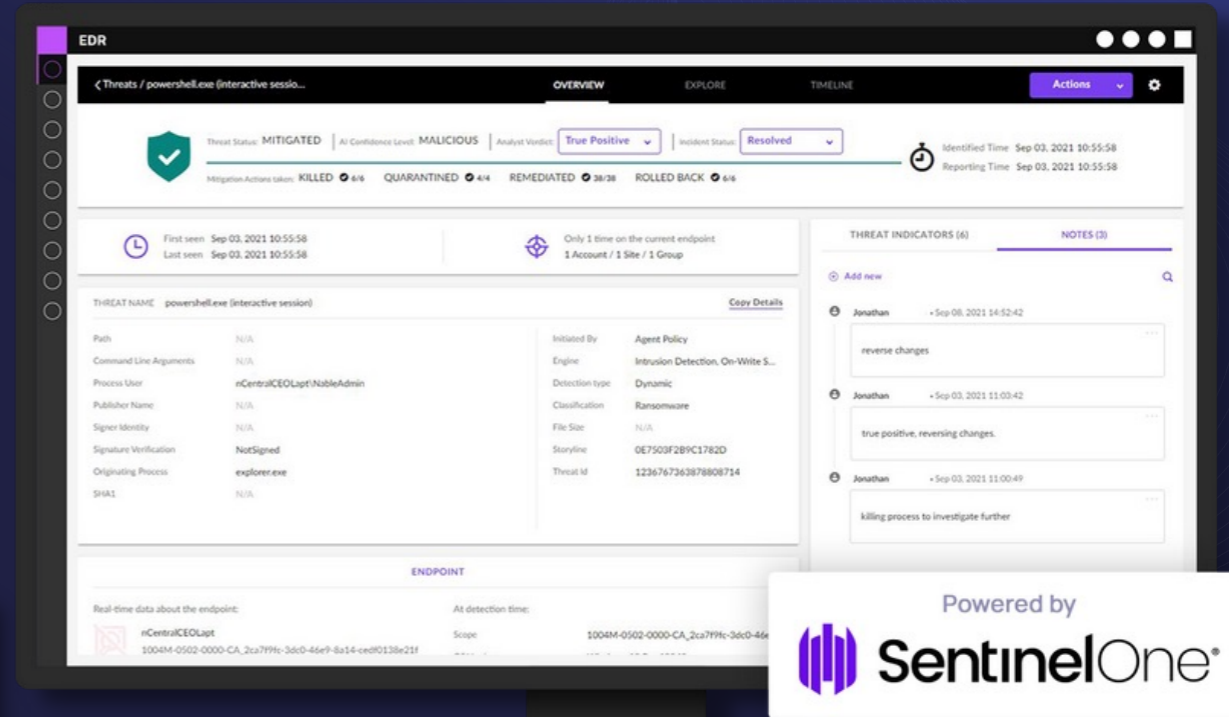

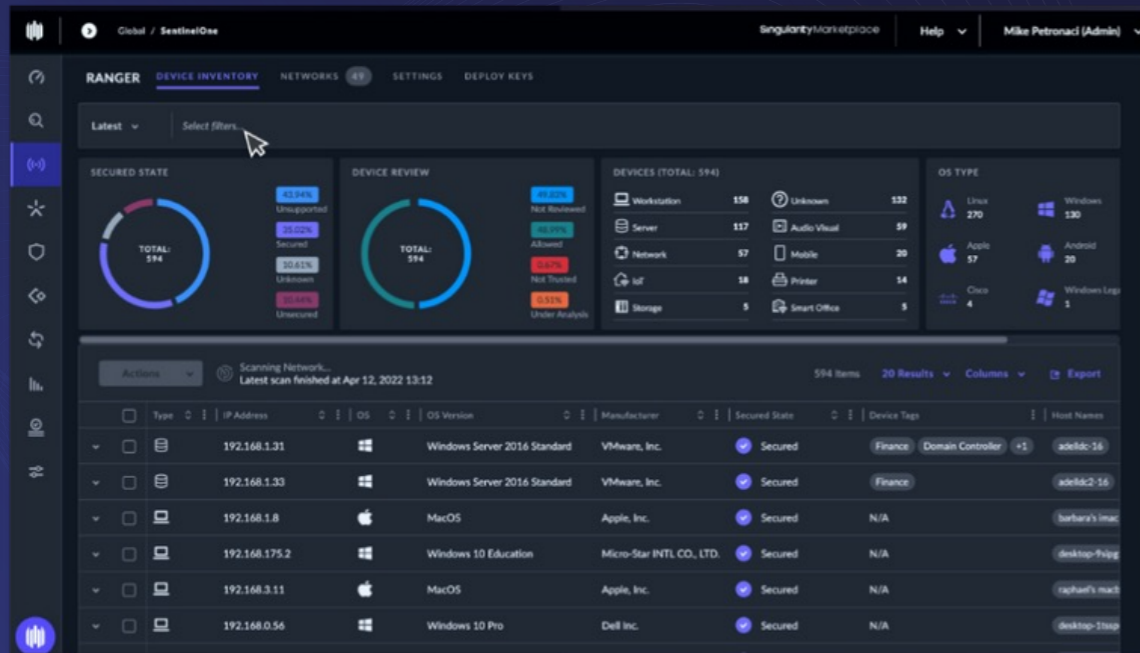

Instantly Respond to Insights

Accelerate your response to malware, ransomware, and any other emergent threats that detection mechanisms pick up autonomously.

Leverage our 24/7/365 SOC

Eliminate alert fatigue and personnel gaps by outsourcing your detection and response service to our expert SOC team.

Best-in-Class EDR

Our Offerings

EDR

Endpoint Threat Detection

- SentinelOne Active EDR Agent and Dashboard Access
- Alerts triaged and managed by internal IT team

Managed EDR

Managed Endpoint Detection & Response

- SentinelOne Active EDR Agent and Dashboard Access
- Alerts triaged and managed by Edge7 Networks SOC

XDR

Extended Threat Detection & Response

- SentinelOne Active EDR Agent and Dashboard Access for devices & servers
- EDR + SIEM technology combined with SOC for full protection

Protecting & Connecting your organisation from Edge to Edge
